- Do you have a good reason for selling?
- Do you know who would be a likely buyer for your business?
- Have you planned what you will do after you exit your business?
- Do you know how much your business is worth in today's climate?
- Have you thought about what obligations will be on you as the vendor?
- Do you KNOW you have a well planned exit strategy or succession plan in place?
- Do you have a "future plan" of what you would do with business if you don't manage to sell?
- Do you have tried and tested processes and procedures for your business?

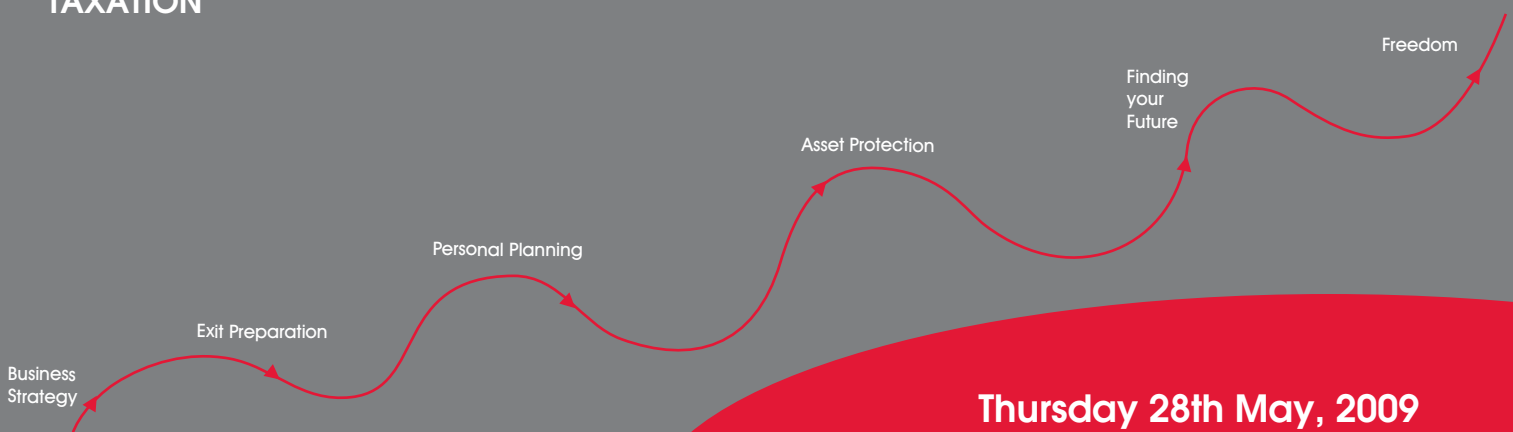

If you are not able to answer "YES" to all of the above, it will be in your interest to attend a seminar designed especially for Baby Boomers seeking to sell their business.

This Seminar on Business Succession Planning will address the following key issues -

SALE OF BUSINESS STRATEGY
